08 Partnership Philosophy & Contact

✓ What Works Best

- **Organic integration** — product naturally woven into the content narrative
- **Creator-led scripting** — Bruno writes and improvises to match his authentic style
- **Value-first approach** — focus on how the product genuinely helps founders
- **Real use cases** — "why I use it, how founders can benefit"
- **Entrepreneurship context** — always tied to empowering builders & startups

✗ What We Avoid

- **Tools that don't fit the audience** — must be relevant to SaaS/tech founders
- **Pre-written scripts** — forced messaging breaks trust with the audience
- **Hard-sell videos** — anything that feels like an ad rather than content
- **Disconnected promotions** — sponsor must connect to the video's theme
- **Get-rich-quick framing** — brand values are transparency & sustainable growth
